# Acquisition Decision Support Systems In Transformation

**CJCS 3170.01C**  
**24 June 03**

**Joint Capabilities  
Integration &  
Development  
System (JCIDS)**  
*VCJCS/Service  
Chief Oversight*

***Revolutionary***

**MID 913 PPBS to PPE**  
**22 May 03**

***Evolutionary***

**Defense  
Acquisition  
System**  
*Milestone Decision  
Authority (MDA)  
Oversight*

**Planning,  
Programming,  
Budgeting &  
Execution Process  
(PPBE)**  
*DEPSECDEF  
Oversight*

***Emerging***

**DoD 5000 Series**  
**12 May 03 Revision**

# Previous Requirements, Acquisition, and Planning, Programming & Budgeting Process

## Requirements

- **Service, not Joint focused**
- **Joint warfighting needs not prioritized**
- **Systems not necessarily integrated**
- **Duplication existed, particularly in smaller programs**
- **Evolutionary Acquisition not well institutionalized**

## Acquisition

- **Policies overly prescriptive**
- **Acquisition environment did not foster efficiency, creativity and innovation**
- **Evolutionary Acquisition not well institutionalized**

## PPBS

- **Strategic planning process did not drive identification of needs for military capabilities**
- **Imposed fiscal discipline but did not integrate strategy into a coherent defense program**

# Acquisition Decision Support Systems In Transformation

# Evolution of Defense Acquisition

## Policy

- **1969 - DSARC established by DEP SECDEF Packard.**
- **1971 - DoD Directive 5000.1, "Acquisition of Major Defense Systems".**
- **1975 - DoD Instruction 5000.2, "Decision Coordinating Paper and the DSARC".**
- **1976 - OMB Circular A-109, "Major System Acquisitions"**
- **1977 - DoDD/DoDI 5000.1/2 revised to incl. OMB Cir A-109. DoDI 5000.2 becomes "Major Systems Acquisition Process", implements 5000.1.**
- **1987 - Policies and procedures extended to "nonmajor" acquisition programs.**
- **1991 - DoD 5000.2-M issued with detailed formats for all documents. 5000.1/2 expanded to absorb over 60 other directives, instructions, and memoranda.**
- **1996 - DoD 5000.1 applies to all programs. DoDI 5000.2 replaced with DoD Regulation 5000.2, applies to major programs (mostly). DoD 5000.2-M eliminated. Major AIS programs included. Deskbook created. Components "empowered" for nonmajor programs.**
- **2000 - DoDI 5000.2 returns, implements revised DoDD 5000.1-**

# Streamlined Policy

- DoD Directive 5000.1
  - Principles retained; innovation/flexibility emphasized
- DoD Instruction 5000.2
  - Detailed discussion of acquisition model
  - Focused on required outcomes and statutory requirements
- DoD Acquisition Guidebook
  - Canceled DoD Regulation 5000.2; characterized as non-mandatory
  - Content will be:
    - Expectations (TEMP, C4ISP, etc.)
    - Best Practices
    - Lessons Learned
  - Guidance on practice and procedure
  - Information retained; available to workforce on Internet
  - Revision underway

# **Revised Policy Objectives**

- **Streamline**
- **Increase Flexibility**
- **Enhance Business Practice**
- **Emphasize Evolutionary Acquisition**
- **Integrate Acquisition Business Model with transformed Requirements Generation System**

# Increased Flexibility

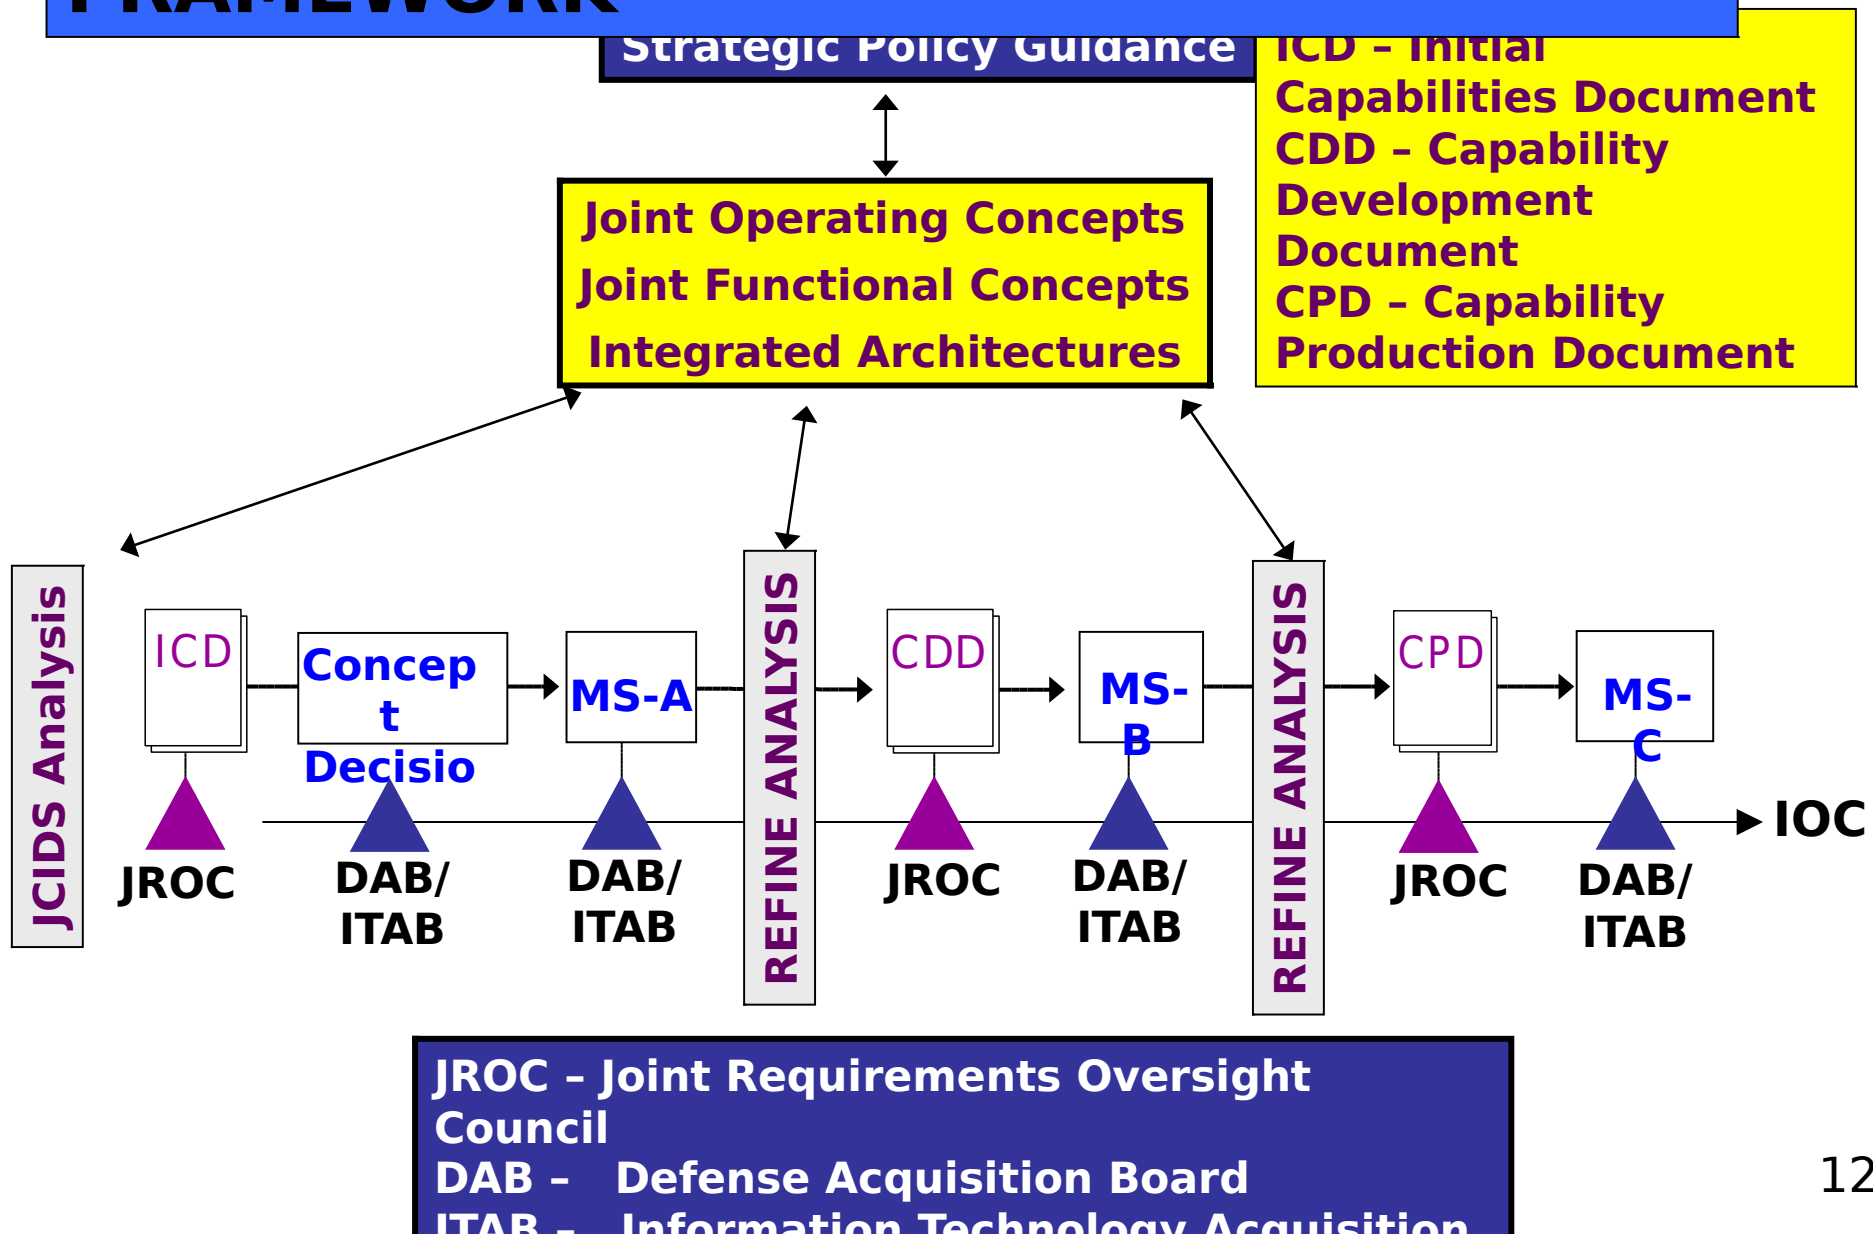

- **PM determines what information is required to satisfy regulatory requirements**
- **MDA may tailor (with some exceptions) regulatory information requirements**
- **MDA resolves issues regarding Guidebook expectations**

***The Opportunity to Be Innovative***

# Enhanced Business Practice

- Institutionalized *Acquisition of Services Policy*
- *Streamlined* Clinger-Cohen Act Compliance Procedure
- Improved Oversight of *Financial Management Information Systems* (and related systems)
- Increased Emphasis on *Supportability*
  - Human Systems Integration, Information Assurance, Sustainment, Anti-Tamper, Spectrum Certification, etc.
- *Design Readiness Review* to assess progress during the System Development and Demonstration Phase
- SAE determination of *Operational Test Readiness*

# JCIDS TIES TO THE DEFENSE FRAMEWORK

# Evolutionary Acquisition

- Two development processes to implement Evolutionary Acquisition Strategy
  - Incremental Development: End-state requirement is known, and requirement will be met over time in several increments
  - Spiral Development: Desired capability is identified, but end-state requirements are not known at Program Initiation. Requirements for future increments dependent upon technology maturation and user feedback from initial increments
- Evolutionary acquisition strategies shall be preferred approach to satisfying operational needs.
- Spiral development shall be the preferred process.

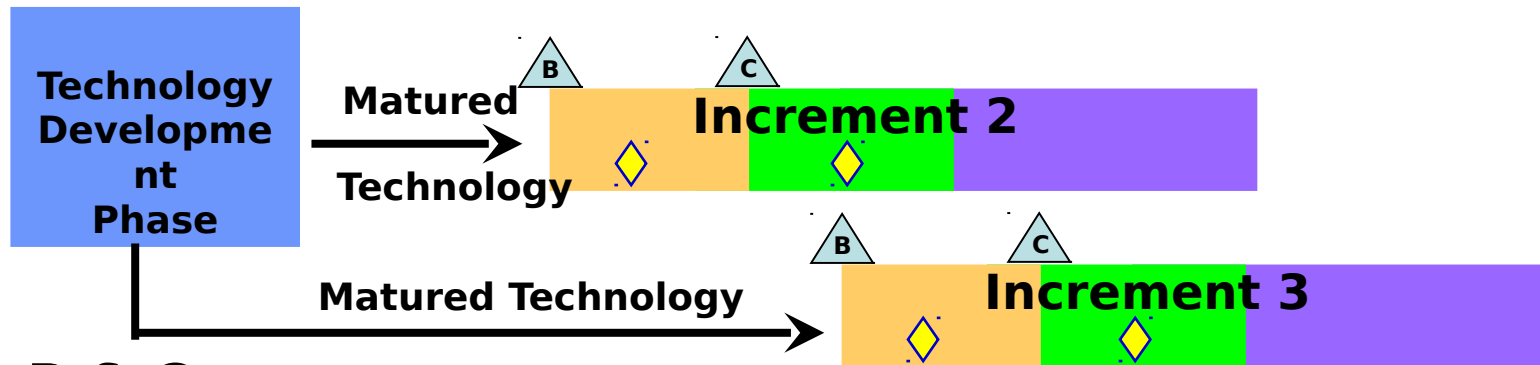

# Evolutionary Approach

## Key Enablers

- Time-Phased Requirements
- A Modular Open Systems Approach to facilitate Technology Insertion
- Evolutionary Sustainment Strategies
- T&E Consistent with Evolutionary Approach
- Full Funding

# Each EA Increment Must Have...

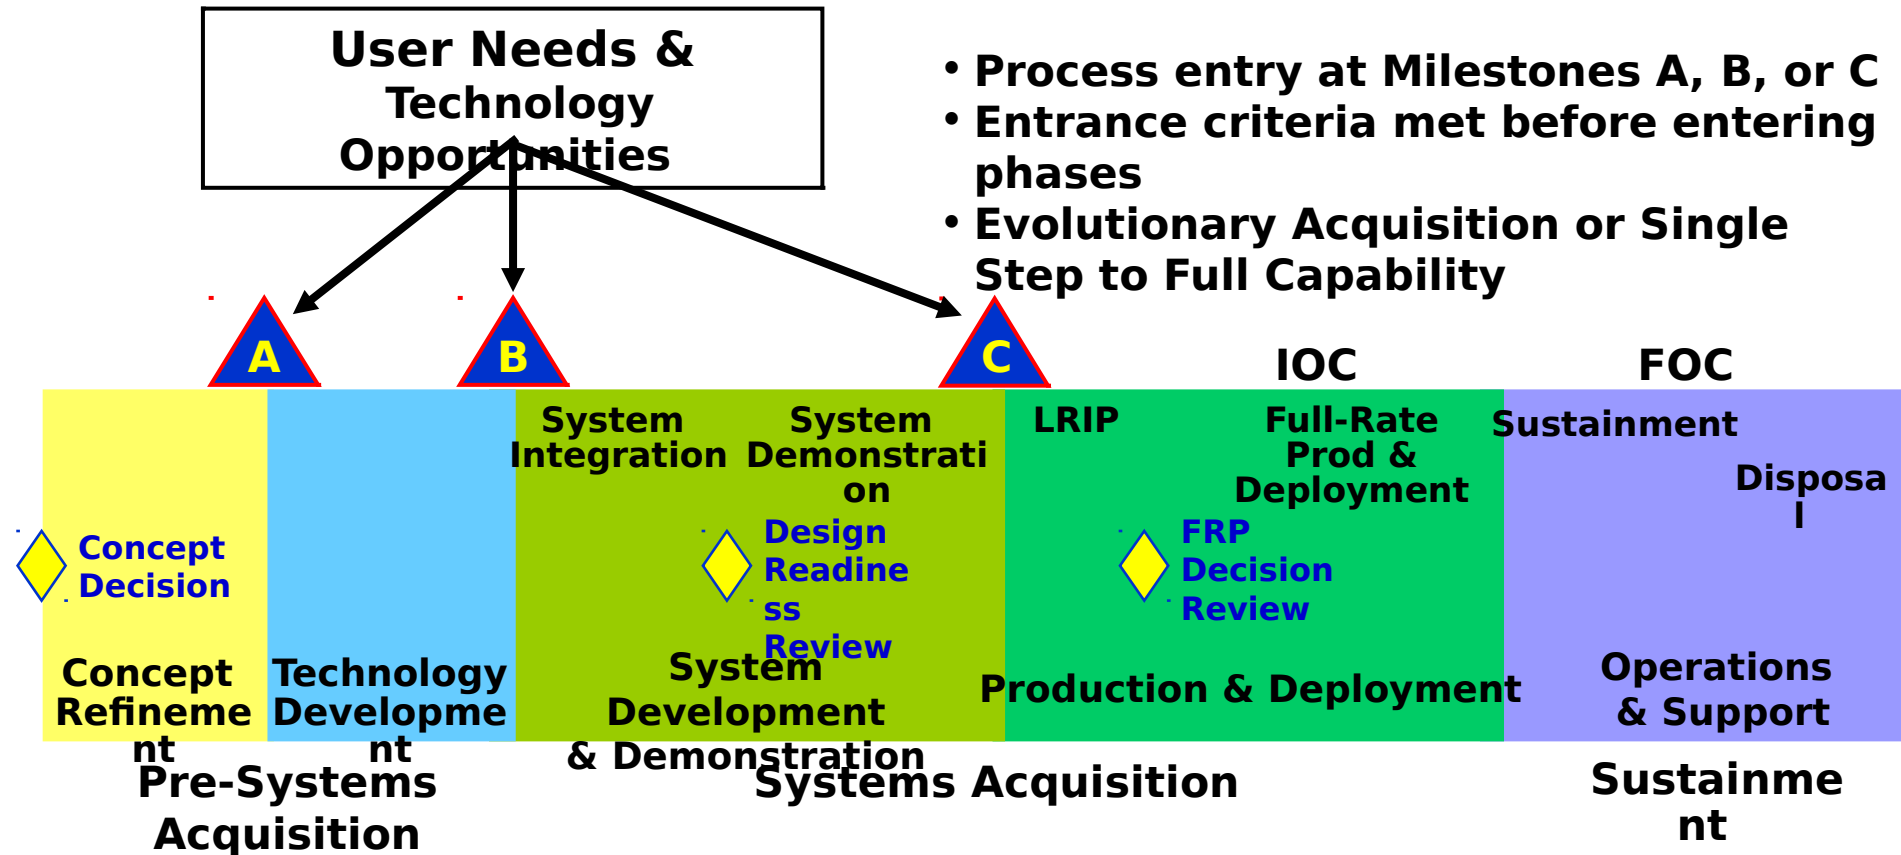

## • Milestone B & C

- Capabilities Development & Production Document (CDD/CPD )
- Performance, Cost and Schedule Goals (Acquisition Program Baseline)
- Operational and Live Fire Testing (If Required)
- Compliance with Acquisition Oversight Requirements
- Acquisition Strategy that reflects consideration of:
  - Logistics Planning;
  - Manpower, Personnel and Training;
  - Environmental and Security Factors;
  - Protection of Critical Program Information;
  - Spectrum Management

**Increments are Related, but Separate Acquisitions**

# The Defense Acquisition Management Framework

# **The Defense Acquisition Management Framework**

**DoDI 5000.2, May 2003**

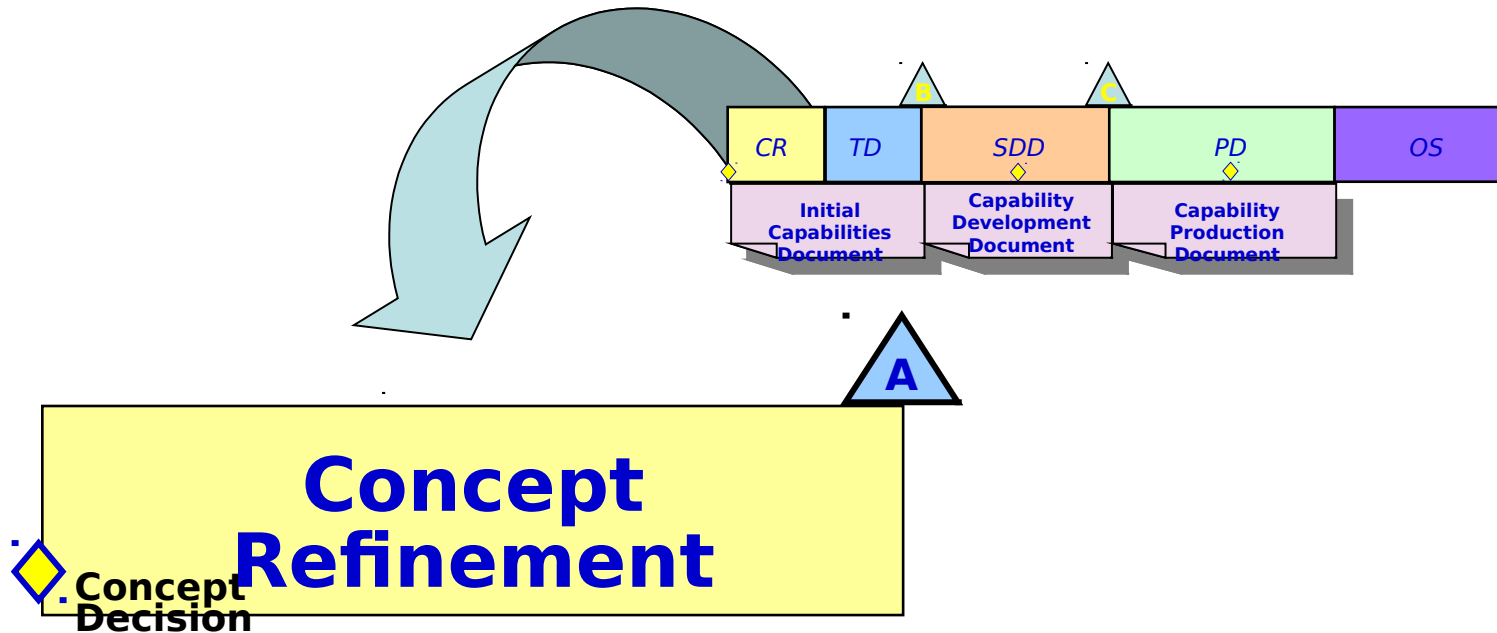

## **Pre-Systems Acquisition**

**Most impact -**

- **Concept & Technology Development now two distinct phases**
- **Concept Decision new decision point driven by Joint Staff requirements for “capabilities analysis”**
- **Analysis of Alternatives due at Milestone A**

# Concept Refinement

- **Purpose.** Refine the initial concept and develop a Technology Development Strategy (TDS)
- **Entrance Criteria.** Approved Initial Capabilities Document (ICD); approved plan for conducting an analysis of alternatives (AoA); phase funding
- **Exit.** MDA-approved preferred solution and TDS

# Technology Development

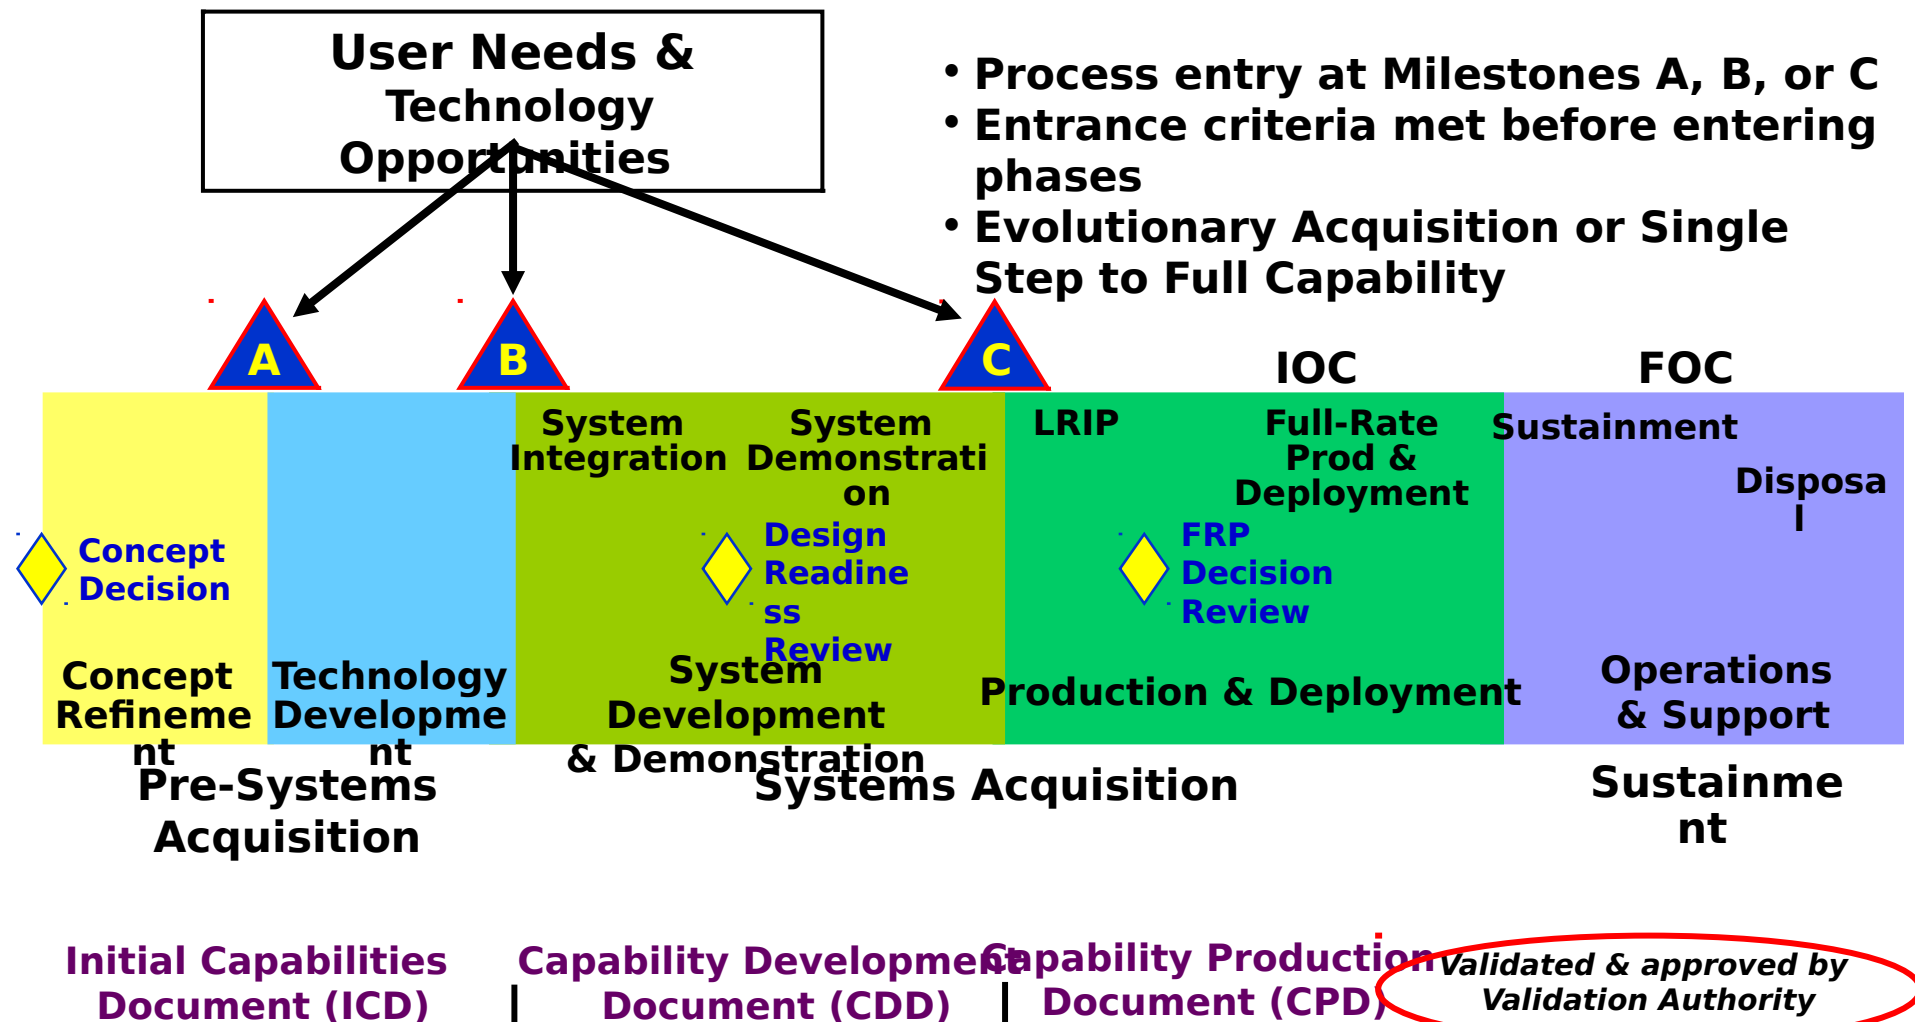

- **Purpose.** Reduce technology risk; determine the appropriate technologies to be integrated into a full system
- **Entrance criteria .** MDA - approved Technology Development Strategy TDS; phase funding
- **Exit .** Affordable increment of militarily - useful capability with technology demonstrated in a relevant environment, and a system that can be developed for production within a short timeframe.

# **Technology Development Strategy (TDS)**

- **ACAT I and IA require TDS. Based on AoA results**
- **Contents:**
  - **Rationale for EA or single-step strategy**
  - **For EA, description of how program will be divided into technology spirals & development increments**
  - **Appropriate limits on prototypes produced and deployed during the TD Phase**
  - **Performance Goals and Exit Criteria to be met prior to proceeding into SDD and producing additional prototypes**
  - **Overall cost, schedule and performance goals for the total R&D effort**
  - **Specific cost, schedule and performance goals and exit criteria for the first technology spiral**

# The Defense Acquisition Management Framework

# System Development & Demonstration

## System Integration

Enter: PM has technical solution but has not integrated subsystems into complete system; approved CDD

### Activities:

- System Integration of demonstrated subsystems and components
- Reduction of integration risk
- DT/EOA/preliminary LFT&E

## System Demonstration

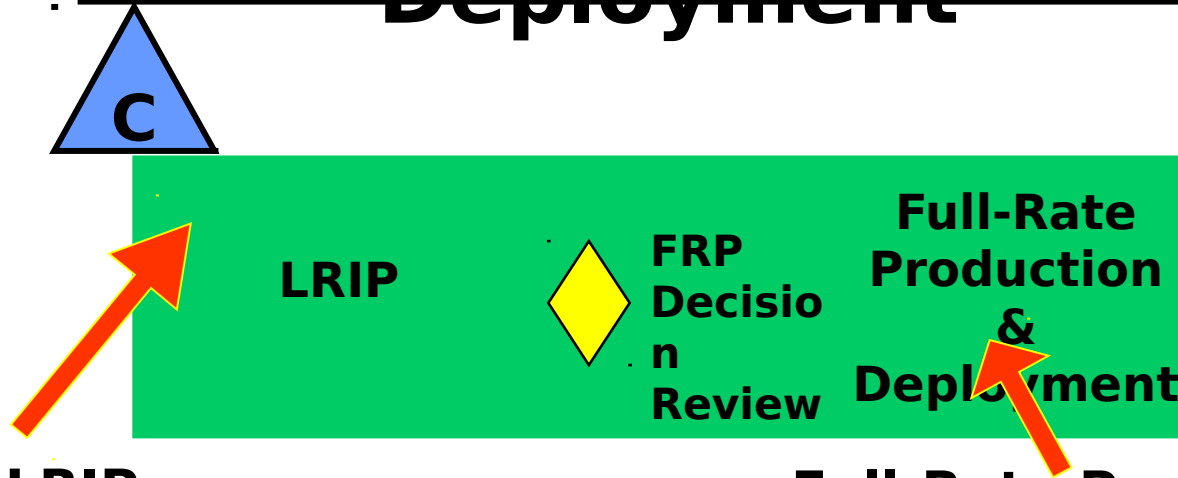

Enter: Prototypes demonstrated in intended environment

### Activities:

- Complete system demonstration
- DT/OA/OT and preliminary LFT&E

Exit: System demonstration in intended environment using

# Production & Deployment

## LRIP

**Enter:** System matured for production, approved CPD

### **Activities:**

- Low-rate initial production
- IOT&E
- Full-up systems level LFT&E of production-representative articles
- Establish full manufacturing capability

**Exit:** System operationally effective, suitable and ready for full rate production

## Full-Rate Production & Deployment

**Enter:** Deployment

- Demonstrated control of manufacturing process
- Satisfactory IOT&E: Beyond LRIP Report to Congress for ACAT I
- Full-up systems level LFT&E (covered systems) & report to Congress

### **Activities:**

- Full rate production
- Deploy system
- Start support

# Operations & Support

## Sustainme

**Sustainment starts immediately upon fielding or deployment.**

### Activities:

- Maintain readiness and operational capability of deployed system(s)
- Execute operational support plans
- Conduct modifications and upgrades to hardware and software

## Disposal

### Demilitarization & Disposal Activities:

- Demilitarize and dispose of systems IAW legal and regulatory requirements, particularly environmental considerations
- Use Defense Reutilization and Marketing Office support, as appropriate

# **New/Revised from Previous Policy (DoDI 5000.2)**

- Establishes Information Technology Acquisition Board (ITAB)
  - Previous MAISRC – DAB counterpart for MAIS programs)
- Designates “special interest” reason for ACAT designation
- Requires SAE (vice Developing Agency) to certify readiness for IOT&E for programs on the OSD T&E Oversight List
- Added procedures for oversight of acquisition of services
- Added new report: Software Resources Data Report

# Defense Acquisition Management Framework

## Key Points

- **Evolutionary acquisition** is the preferred strategy for rapid acquisition of mature technology; **spiral development** is the preferred process
- MDA may authorize entry at any point consistent with phase-specific entrance criteria and statutory requirements
- Non-mandatory guidance on best practices, lessons learned and expectations are available in the Interim Guidebook (former DoD 5000.2-R)
- Requirements documents replaced by Capability documents (ICD, CDD, & CPD)

# **Final Thoughts..... Deliver Advanced Technology Faster**

- **Improved integration of business practice**
- **Focus on Joint Capabilities**
- **Flexible, outcome-based, Acquisition Management Framework**
- **DoD Acquisition Guidebook in final draft**
  - Go to <http://dod5000.dau.mil> for updates

# ADDITIONAL RESOURCES

- **DoD 5000 RESOURCE CENTER** (<http://dod5000.dau.mil>)
  - Includes:
    - **Joint Capabilities Integration and Development System (JCIDS)**
      - Instruction (CJCSI 3170.01C) and Manual (CJCSM 3170.01)
      - Overview Video (J-8)
      - JCIDS Brief
    - **Defense Acquisition System**
      - Directive (DODD 5000.1) and Instruction (DODIO 5000.2)
      - Overview Video (DPAP)
      - Summary Brief
      - Tutorial, Frequently Asked questions, Terminology
- **OSD PA&E Website**
